PROFILE

Experienced Full-Stack Web Developer and Computer Engineer (BAC+5 Engineering Degree) with 2 years of professional experience building scalable web applications, cloud-integrated platforms, and custom WordPress solutions. Worked across agency, startup, and freelance environments delivering 20+ projects. Proficient in React.js, Node.js, NestJS, AWS, PHP, and WordPress. Strong ability to work autonomously, adapt quickly to client needs, and deliver reliable, high-performance solutions on time.

WORK EXPERIENCE

Full-Stack Web Developer

Jan 2025 – Jun 2025

Reotech

Project: Delivery Vehicles Management App — Stack: NestJS / React.js / SQL / AWS

- Built and maintained a full-stack fleet-management application serving 500+ daily active users, reducing vehicle tracking latency by 30%.
- Designed RESTful API architecture with NestJS, improving response times by 25% through query optimisation and caching.
- Collaborated with the product team to define architecture and conduct code reviews, delivering all features 2 weeks ahead of schedule.
- Wrote unit and integration tests, increasing code coverage to 85% and eliminating critical production regressions.
- Produced technical documentation and user guides, reducing onboarding time for new developers by 30%.

Full-Stack Developer — Node.js / React.js

Jun 2023 – Feb 2024

BuroExpert — Bizerte, Tunisia

Project: Library Management Platform — Stack: Node.js / React.js / Redux / AWS S3 / WebSocket

- Architected a high-performance Node.js backend handling 1000+ concurrent requests, reducing server response time by 35%.
- Built dynamic, responsive React.js UIs with Redux state management, improving user session retention by 40%.
- Implemented RESTful APIs and WebSocket protocols for real-time client-server communication across 3 application modules.
- Integrated AWS S3 for secure file storage with pre-signed URL management, supporting 10GB+ of user-uploaded content.

WordPress & PHP Developer

Sep 2025 – Present

Unicom Digitale Agency — Bizerte, Tunisia

- Developed custom responsive WordPress themes from scratch (PHP, HTML5, CSS3, JS), ensuring mobile-first design and cross-browser compatibility across 10+ client sites.
- Engineered bespoke PHP plugins and extended existing plugin functionality, reducing client development requests by 40% through reusable components.
- Built dynamic page layouts with Advanced Custom Fields (ACF) and custom Gutenberg blocks, cutting client content editing time by 50%.
- Integrated third-party REST APIs (Stripe, Salesforce, Mailchimp) to automate data sync and enhance site functionality.
- Developed and managed high-traffic WooCommerce stores with custom checkout flows, improving conversion rates by 20%.
- Implemented security protocols (SSL, firewalls, malware scanning) and performed regular updates, achieving 99.9% uptime.

Freelance WordPress Developer

2021 – Present

Self-employed

- Delivered 20+ custom WordPress websites (showcase & e-commerce) for clients across retail, services, and hospitality sectors.
- Developed custom themes and plugins; improved average page-load speed by 25% through caching, CDN setup, and code optimisation.
- Managed full project lifecycle: requirements gathering, UX design, development, SEO optimisation, and post-launch support.
- Trained 10+ clients on WordPress CMS usage, reducing support requests by 60%.

PROJECTS & INTERSHIPS

Full-Stack Developer Intern

Jan 2022 – Aug 2022

Telnet Smart — Tunisia

Final Year Engineering Project: Data Management System (DMS) — Stack: Node.js / React.js / AWS S3 / JWT / OAuth / WebSocket

Built a GitHub-style document versioning platform with role-based access control (JWT & OAuth), real-time WebSocket notifications, AWS S3 distributed storage, conflict resolution engine, and automated CI/CD pipelines. Monitored performance and errors with Sentry; achieved 90%+ test coverage.

Web Developer Intern

2022

Fenix Future Dev

Stack: React.js / Node.js

Contributed to client-facing web application development within an Agile team, participating in sprint planning, feature delivery, and code reviews.

EDUCATION

Engineering Degree in Computer Science (BAC+5 — Master's level equivalent)

2021 – 2024

ESPRIT – Higher Private School of Engineering and Technology, Ariana, Tunisia

Bachelor's Degree in Computer System Maintenance (BAC+3)

2018 – 2020

Higher Institute of Applied Sciences and Technology of Mateur, Bizerte, Tunisia

Baccalaureate in Computer Science

2018

Habib Thameur High School, Bizerte, Tunisia

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Redux, Context API, Gutenberg, ACF
Backend	Node.js, NestJS, PHP, REST APIs, WebSocket, JWT, OAuth, Spring Boot, .NET
CMS / E-commerce	WordPress, WooCommerce, Custom Themes & Plugins
Databases	MySQL, PostgreSQL, MongoDB, SQL, NoSQL
Cloud & DevOps	AWS (S3, EC2), Docker, Git, GitHub, CI/CD, Agile / Scrum
Other	Java, Sentry, SEO optimisation, Performance tuning
